**Short description of the lesson:**

- The teacher or trainer monitors the work of another educational professional in the teaching of immigrants.
- The participants agree among themselves on what part of the work they must deal with and when the other teacher will follow it. They also discuss the goals and considerations of monitoring before and after work.

**Equipment needed:** (describe concretely what equipment will be needed by students and teacher for recording songs)

- Notepads, a camera, or a phone that can store video and sound.
- Students' and teacher's permission for recording

**How to use:** (describe concretely how to use the method)

This method can be used in a variety of situations. At your own educational institution, on visits to educational institutions, or on an international exchange. The introduction of the method requires agreement and obtainment permits from the parties involved.

**Additional information** (pictures, links, forms, etc.)
