

Project “INTENT 4.0” (2019-1-DE02-KA202-006122)

Minutes Virtual Meeting 14/15th of June 2021

Participants: cf. participant list of the meeting/Screenshot

Main topic	Agreements and Assignments	Supporting Documents
	14 June 2021	
Framework conditions	Stefan presents the objectives of the Summer School against the overall project aims and objectives	PPT of the meeting
Partners present the actual state of their modules comments and discussion	<p>The discussion showed that there is a common understanding that all module shall be presented in one overall framework or if they only shall have a common reference to the project’s aims but being independent among each other.</p> <p>Partners agree that it is better to have a common framework (a common learning product (drone), a common company, a common supply chain to work on).</p> <p>Task: Partners will have to communicate with each other to define the common product!</p>	Presentations in Teamplace

Working groups on the modules	Partners have an exchange on the modules in country mixed working groups and give their comments and express their special requirements.	Padlet (in Teampplace)
Summary of working group's results and discussion	Partners discuss if it would be attractive for the participants to actively support the completion of the modules and the conceptual design for the Multiplier Events and the further implementation of results as agreed on the previous meeting or if it would be better to complete the modules before the SuSch starts and invite the participants with clear objectives what they can learn and how to implement it in their classes. This would include more work before the SuSch will start. The workshops will have to be prepared in a way that the participants will have the chance to design own modules for their target groups in their schools. The definition of the target groups will have to be sharpened. Finally partners agree that the latter proposal is the better one. This includes again a re-design of the Summer School's program.	Revised program of the SuSch EUGES will send a proposal with the minutes
15 June 2021		
Alternative timelines	Stefan presents alternative timelines especially with regards to yesterday's results and the timing of the Multiplier Events.	PPT of the meeting

	<p>Partners agree on the second proposal (slide 5). In addition, all agree on another separate meeting to prepare the Multiplier Events, as it was foreseen in the original plan. It will be decided after the SuSch whether this will be virtual meeting or a physical one in Durango, Spain.</p>	
<p>Framework - external conditions of the Summer School</p>	<p>Partners agree on the date of the SuSch: 27.09. - 1.10. 2021 in Bari.</p> <p>Loredana proposes two options for lodging (including Italian breakfast) and partners agree on the cheaper option in a student's house.</p> <p>Loredana will explore the costs for a mini-van for transportation from the accommodation to the meeting place.</p> <p>EUGES and Loredana will prepare a proposal for the social and intercultural program during the meeting.</p> <p>All will give an information on their times of arrival and departure so that we can decide if the program can start at Monday morning and last until Friday morning or if it will have to start at Monday afternoon and last the whole Friday until 25.06.</p> <p>EUGES will inform all partners on the final result.</p> <p>EUGES will prepare a file regarding organizational questions.</p> <p>The invitation of the guests will be done individually by all partners.</p>	<p>PPT of the meeting</p>

<p>Planning of the Summer School – methodical and didactical aspects</p>	<p>The modules are now to be made available to teachers from the partner institutions at the Summer School with clear objectives and benefits for them. A revised program will be prepared by EUGES and sent with the minutes.</p> <p>Partners are asked to develop leading questions for their workshops in order to enable the guests to develop own modules. Please add this to the proposal and publish it for all on Teampplace.</p> <p>This proposal will be finally discussed at a virtual meeting on 30.6. at 10:00 a.m., also with regard to the detailed planning.</p> <p>Here, also methodical and didactical aspects are to be discussed, leading questions are attached.</p>	<p>Proposal revised program File Methodical_didactical_aspects</p>
<p>Dates</p>	<p>Virtual meeting: 30.06., further preparation SuSch</p> <p>Summer School: 27.09. – 1.10., Bari, IT</p> <p>Meeting to plan the Multiplier Events (virtual or in Spain/Durango) and further dissemination and implemetation. The date is still to be fixed.</p>	<p>Outline_Module</p>
<p>Next Steps</p>	<p>The next virtual meeting will be 30th of June 10:00 h.</p>
